21. Continuarem acordant amb la Comunitat de Regants totes aquelles inversions necessàries en el terme.
22. Posarem en funcionament l'assessorament per la gestió del quadern digital de l'explotació agrícola.

2 What we will do in the future?

As you have just seen for eight years we have transformed Orba, making it a more people-friendly town and a municipality where European residents are more than just people with the right to vote. With us, European residents have begun to form part of the Orba community, listening to your needs, thinking about your cultural tastes and keeping the urbanizations in good condition. But we need to have 4 more years in government to continue with the work started and improve our community with the following new proposals.

> Security

23. Increase the hours of the police service and collaborate with the watchdog groups of the urbanizations.
24. Continue clearing forest areas near urbanizations.

> Relationship with European residents

25. We have incorporated two European residents into our team to learn first-hand about your needs.
26. We will continue to have a close and daily relationship with the representatives of the urbanizations.
27. We will hold annual meetings with European residents to get their views.
28. We will carry out acts of cultural and gastronomic exchange between the different nationalities of the municipality.
29. We will introduce European residents to cultural programming and contract with music groups known to you.

Public space, services and parking

30. We will improve public space to make it more pleasant for people.
31. We will create more parking areas near the town.
32. We will continue renewing the drinking water network and solve the most conflictive areas.

Heritage

33. We will install signpost and explain our heritage also in English.
34. Environment
35. We will increase the collection and cleaning of waste areas.

Sports

36. We will introduce the sports facilities to the people who live in the urbanizations.

Education

37. We will continue carrying out training for European residents according to the needs that you develop.

3 Why you have to vote for us?

Our mayor

Born and brought up in Orba. His parents live on an urbanisation and his father runs a business in the town. Ignasi is young and lives in town with his wife and they have a young son – he is a family man.

During these years and also before becoming a Compromis candidate, he and his wife made efforts to improve their English language skills. Ignasi is much more approachable and you can talk to him, meet with him, etc.

As soon as he became mayor, he established a network of urbanisation reps. to improve communication with the non-Spanish population, so that issues affecting the urbs. could be raised at regular meetings between him and the reps.

Our feelings

We absolutely believe that the situation of European residents is much better now than before. Despite these points, it is you who must decide.

If you think that now your situation in Orba has improved, come and vote for us. Vote for Compromis

Ignasi
